

2024 NEW TILE ROOF MOUNT

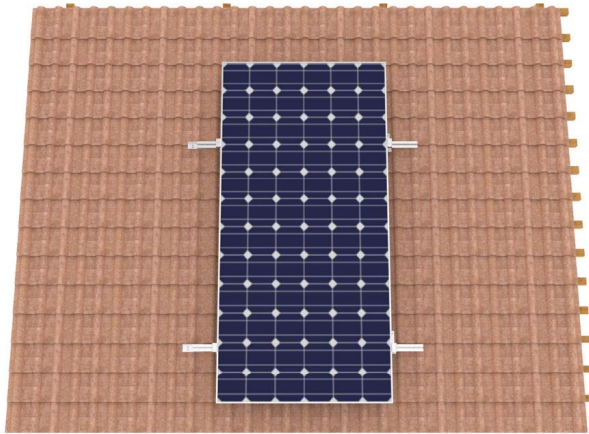

Better Design, Better Support, Better Price

We respect your project and installation. Every single detail of this new solar metal roof mount has been considered and optimized.

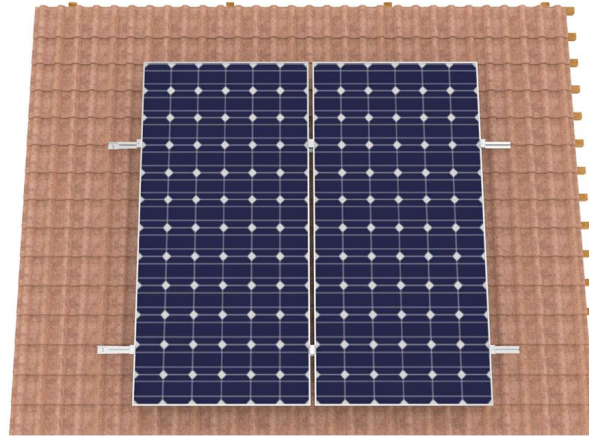

- Rail structure has been optimized to enhance strength, and additional anti-sliding design for modules positioning stability.
- Unlike the traditional end clamp and mid clamp, the nut is fix the clamp which is more easy and safety to fix the panels.
- The mid clamp is self-standing by recessed spring and grounding clip. Universal for 30-40mm size solar modules.

Every component has been fully optimized with better design, better support for easier faster installation experience.

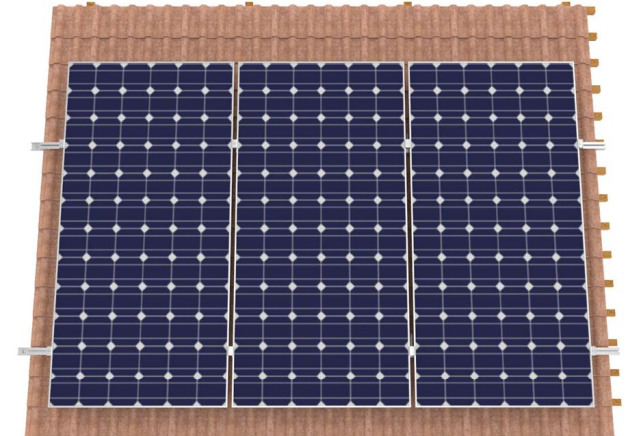

CORIGY new tile roof mount is a professional choice for your tile roof solar mounting.
